The Premium is paid in Cash annually, or may, if desired, be paid semi-annually, or quarterly, by adding interest to the deferred payments. The CASH principle adopted by this Company, secures to the parties for whose protection insurance may be effected, the WHOLE of the benefits, without subjecting them to the heavy drawback of accumulated premium notes.

Persons may effect insurance upon their lives, or upon the lives of others. Married women can insure the lives of their husbands, for THEIR OWN USE and for the protection of their children.

Pamphlets explanatory of the principles of Life Insurance, and illustrative of its advantages, may be had, with form of application, and rates of premium, at the office of the Company, No. 35 Wall street, or from any of its Agents.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purpose contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOHN DWIGHT & CO'S
SODA SALÆRATUS

MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.

The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.

Also may be found, John Dwight & Co.'s

Washing & Cleansing Powders,

which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other Iron works leaving the iron perfectly dry, and not liable to rust.

Directions for use are printed on each package.

(Late Butterfield, & Averell's.)

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of

Wines, Liquors & Cigars,

Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands, on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.

I have marked my Goods very low, and have therefor adopted the

ONE PRICE SYSTEM,

and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.

Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

Brandy, Gin, Rum, Wines, &c.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

OFFICIAL PAPER OF THE CITY.

THOSE BACK MAILS.—Our citizens were on the qui vive on Thursday morning, and at the Post Office early, to get the papers and letters expected for weeks. A huge batch of letters made their appearance, their dates running at intervals between the 11th and 18th ult, but *no papers* at all. Still, as another stage was promised in the afternoon, they kept up their courage. Shortly after 6 o'clock, the office was again open, and dispensed a quantity of papers, being New York dates of the 11th! Albany of the 17th, Buffalo of the 20th, and Detroit of the 26th. Just 3 weeks from New York.

Yesterday morning, we had letters from New York of the 20th and 21st, *no papers at all!*—Detroit letters of the 30th made their appearance, four days later than any papers from there.—Will there ever be an end to these scandalous delays? The Chicago *Democrat* of Wednesday says:

> There was a heavy but scattering mail, last night. It brought dates from New York city *up to the 20th.*

It would gratify some people in this region to know why, in the name of common sense, those dates are not here by Friday morning, at least.

THE CUBA PRISONERS.—It will be seen by our despatch of last evening that all of the Cuba prisoners are released, through the powerful representations of Mr. Webster. His straightforward diplomatic papers generally have their weight.

THE FUGITIVE LAW.

> Some few whigs did vote for the law referred to, but the very large majority voted against it. They did not make the law, by any means. It was "democratic" in its conception, and "democratic" in its passage. Look to the record.—*Sentinel.*
>
> If the "passage" through the two Houses without President Fillmore's signature, made it a law, then perhaps it was Democratic. If the "passage" of President Fillmore's pen over it made it a law and without that "passage" it was no law, we ask the *Sentinel* if the party who made Fillmore President, are not the enacters of the law?—*Waukesha Democrat.*

Not by any manner of means! The large majority of the whigs in both Houses of Congress spoke and voted against the law, and it was passed by the votes of the other side of both Houses. Nevertheless the President conceived it to be his duty to sign it, and did so. The bill might have become a law without the Presidents signature, but his pen might have written "Approved" under it from the time of its introduction till now, and it could not have become a law, without passing both Houses of Congress.

The License Money.

> We see by the last Milwaukee papers that Mr. Johnson, President of the Board of Aldermen, has been restrained from signing the orders for the refunding of the license moneys, by a notice from the City Attorney that he would be held individually responsible. Glad to find one officer determined to do his duty at all hazards.—*Beloit Journal.*

The *Journal* is in error in supposing that the notice came from the City Attorney—it came from the attorney of several citizens.

Our friends in the country, who take a very natural interest in this matter, will have learned, before this time, that strenuous efforts will be made to carry out the provisions of the law, and that the dealers who have complied with those provisions, are resolved that the privilege which they have purchased shall not be interfered with with impunity.

EXCITING RUMOR.—On the 19th inst, the anniversary of the execution of Robert Blum at Vienna, black-edged placards were found pasted on the street-corners of Dresden, containing the words "*Robert Blum lives!*" The police have endeavored in vain to discover those who put them up. In Frankfort-on-the-Maine, on the same day, two black flags were found erected on an island of the river, containing the inscription—"*Blum lives—Kossuth lifts the cover from his tomb—the day for unity and freedom's fight is dawning!*"

THE ASSEMBLY.—The tie in the Beaver Dam District of Dodge County, has resulted in the election of H. D. PATCH, democrat, by 73 majority, over CHAS. MANN, Whig. This makes the Assembly 31 Whigs, 29 Democrats, 6 Free Soilers. There is a vacancy in the Waukesha Senate District, to be filled next week. If the Democrats elect their candidate, they will muster 42 votes on joint ballot, against 36 Whigs and 7 Free Soilers. If the Whigs succeed, the vote on joint ballot will stand 41 Dem., 37 Whigs, and 7 Free Soilers.

☞ The Waukesha *Democrat* publishes a communication taking strong ground in favor of a new appointment of a Delegate to represent the Congressional District in the Democratic National Convention, in place of Judge BRYAN, the gentleman selected for that post by the late Democratic State Convention. The *Wisconsin* of Wednesday contained a favorable allusion to the same subject.

BARABOO.—This town, according to the *Standard,* has been growing rapidly the past year. No less than 75 buildings have been erected, and nearly are occupied by their owners. The population has increased nearly 50 per cent. Three new Churches have been built, and a Public School House, costing $2,6000. Thus, even in these hard times, do our Wisconsin towns go ahead.

THE "BLACK SWAN."—Col. J. H. Woods of the Cincinnati Museum, is reported by the Buffalo papers as having made an engagement for the musical services of Miss Greenfield, the 'Black Swan," for three years. It is said that Col. Woods has secured $25,000 to her for the first year. She is to sing in this country and in Europe.

FROM OREGON.—Accounts by the *Daniel Webster* report that all the men belonging to T'Vault's exploring expedition, who were said to have been murdered by the Indians, have returned safe.

The contract for carrying the mails from Astoria to Oregon City and to the Great Salt Lake, were let for $10,000, and $8000 respectively.

THE MAYFLOWER.—The Cleveland *Plaindealer* of the 25th says:—

> Mr. BROOKS, of the Michigan Central Railroad, is now at the *Mayflower,* and telegraphs that there is not a plank broken about her, and that, weather permitting, he shall soon have her afloat.

THE CONGRESSIONAL LIBRARY.—The pecuniary loss by the burning of the Library at Washington is estimated at $300,000. There is beyond this, however, a loss in documents, manuscripts, rare copies, &c., which can never be repaired.

MONTGOMERY NOT DEAD.—Late accounts from England contradict the report of the decease of the poet Montgomery. He was living, and enjoying his usual health shortly before the sailing of the last steamer whose news reached us by mail.

OHIO.—The State of Ohio paid in New York, on the 1st of January, $1,800,000 on her seven per cent. bonds, that being the amount falling due on that day. At the same time she was to pay $600,000 semi-annual interest.

HEAVY VERDICT.—Messrs. Ro

CORRESPONDENCE OF THE SENTINEL.

NEENAH, Dec. 24, 1851.

Messrs. Editors:—Hitherto the loco foco party has had the *control* of the public affairs of Wisconsin since its first organization. The lax and reckless legislation and improvident expenditures of the Territorial Government, as well as the corrupt and faithless administration of the affairs of the State, are the legitimate fruits of locofocoism untrammelled. The innovations upon, and the reckless violations of, the Constitution, by every legislature that has assembled since the organization of the State Government, are part and parcel of the system which sought to perpetuate *party* at the expense of the dearest interests of the people.

A change has at last taken place; when true democracy had been trampled under foot and a regency of demagogues had vainly supposed themselves firmly established in power, the *people*—the *true* Democracy—have rallied to the rescue of the State, and she stands out, so far redeemed, that Hunkerism quails and the hearts of all honest republicans are encouraged by brighter hopes and more cheering prospects.

The Legislature, now about to assemble, is the first in the history of Wisconsin, where the locofocos have not had at least two-thirds of both branches, and frequently a larger portion. And as, for the first time, the Whigs will have some responsibility; in the administration of State affairs, it is confidently hoped that that responsibility will be discharged faithfully—and that the Constitution will be restored to its proper position and regarded as the fundamental law, in accordance with which all their acts must be regulated.

At the outset, in the very organization of the Assembly, a new policy must be pursued and the officers must be *elected in accordance with the Constitution,* and whatever of patronage may be in their hands must be bestowed within the line marked out by the charter under which we exist as a State. After these minor questions have been disposed of and the graver subjects of legislation come up, a faithful adherence to the same policy should continue, and the *paramount* interests of the State and the welfare of the people should be preferred to any temporary *party* advantage at the expense of the Constitution.

A faithful observance of the great Whig landmarks, and a steady and firm adherence to the principles and policy under which the country has prospered heretofore, will, of course, be expected from the *Whigs,* and a liberal regard for all the diversified interests of the State.

The enacting a *Banking law*—*Apportioning the representation* and *fixing the number* of the Legislature—the investigation into the situation of the *School fund*—and an examination into and a faithful adjustment of the *Fox River Improvement* question—will be among the important matters that will come under consideration.

The first of these questions will be disposed of prudently, and in a manner to secure to the State a smart and judicious banking system;—the second in strict fairness, without gerrymandering, and in a manner to secure a fair expression of the wishes and sentiments of the people. The school fund will be watched with zealous care, and all necessary efforts made to secure it, as far as possible, beyond the reach of demagogues and political financiers.

The *Fox River Improvement* matter is one of more immediate and pressing importance, and the people of this portion, and in its collateral bearings of vast consequence to the State. There can be no doubt but there has been mal-administration, both on the part of the Board of Public Works and the Land Officers. There can be little doubt but members of the former have been partners in contracts and recipients of benefits in violation of law and of the public interest; and there can be as little doubt but the latter have been guilty of great injustice and partiality in the disposition of the public domain. But the great question after all, is—Is not the work, as now managed, soon to become a burden and tax upon the State? and was not the law of the last Legislature, by which Mr. Martin was put in possession of the work, a violation of the Constitution and good government, inasmuch as it will unavoidably create a *public debt,* and lead the State into a vast expenditure of money unnecessarily, and for the benefit of political partizans?

To *us,* who are on the line of this great work, the question whether it shall be completed, and when completed, whether it shall be of any use to the public, is a matter of pressing consequence. If completed according to the provisions of the law of the last session, as I understand it, it will cost twice the amount of the grant, and must be locked up by enormous tolls, or be a constant *State tax;* when, as we believe, it could have been done as speedily, within the amount appropriated by Congress, and been afterwards sustained without charge to the State.

In adverting to these matters at this time, I desire not to be understood as dictating to any one, or as assuming any superior sagacity, but simply to call attention to the responsibility that in the course of events now devolves upon the Whigs and those in the Legislature who have acted with them in electing a Governor.

Very truly yours, &c.,
HARRISON REED.

N. Y. BRANCH MINT.—The Board of Aldermen of New York have adopted a report tendering to the Government the free gift of a site for a U. S. Branch Mint.

DISCONTINUED.—The Post Office at OWASCUS, Fond du Lac County, has been discontinued, by order of the Post Master General.

BOSTON MAYOR.—Benjamin Sever, whig, was elected mayor of Boston by 14 majority, on the 3d trial, on the 25th.

Mr. Hebard of Vt., offered a preamble, and resolution to the following effect:—

That, whereas, Kossuth in his New York speeches is reported to have declared that the resolution of welcome passed by Congress has a political meaning. Therefore—

Resolved, That said resolution was not intended to have a political meaning, or to pledge the government to any course of action, but merely expressed sympathy in the cause in which he is engaged. A debate arose on the rules as to whether the resolutions (objection being made by Mr. Clingman) should lie over. It was finally so directed.

A SKETCH.

MY ESCAPE FROM HOHEN ASPERG IN FEBRUARY 1850.

BY A. ROESLER

[CONCLUDED.]

The young wife of the fugitive was subjected to a six hours' examination—the magistrate endeavored to cramp her by various questions; at the end he was as wise as at first. "Where is your husband," he asked; "that, sir," she answered, is what I wish, my self, to know!" "who corresponded with him?"—"you know as well as I," "who gave him the information?"—"what information?"—"that he should attempt to escape today?" "It is very strange," she rejoined, "who could have given him the information?" In short, she said, "she would not have assented to the plan on account of the short-sightedness and feeble health of her husband, and that her courage indeed, was unequal to such an enterprise." In the evening she was released—they might well be ashamed to detain a mute wife, against whom there was no proof. On the following morning her apartment was searched—"where" it was asked, "are the letters"—"You read them yourself," she replied—"But the others?"—"which do you refer to?"—"those that I did not read;" I could receive none that you had'nt read"; "where then are the letters which I did read?"—"I have destroyed them;" "why?"—"because as you know, my husband's letters, latterly, have been impatient;" "such one cares not to preserve." At this stage of the investigation, Hopp (a clergyman) entered the room; he was a republican member of the Wirtemberg Assembly, and a faithful friend who had afforded, for months, to the distressed lady the shelter of his roof, but was not privy to the escape. "Indeed," he exclaimed, before the magistrate and his companions," never in my life was I so delighted as I was yesterday, when the gendarmes surrounded my house and wanted to search it"—I asked them "why?" They replied that R. had escaped and they were looking for him here—straightway for joy, I ordered a bottle of the vintage of "46," and said to them that if they were not in the service, they should drink Roesler's health—but as it was I could'nt offer them wine. I demanded their warrant; and when they said that in their haste they had forgotten it, I told them they might go back and procure one." The magistrate had to hear these disagreeable remarks, and departed without finishing his task.

Friends in Wirtemberg took care, however, that Mrs. R. should leave the kingdom before the ensuing session of the Court. In the mean time, the fugitive safely reached Noerdlingen, in Bavaria, and there took the cars for Augsburg. At the latter place he was liable to be recognized. He was therefore obliged to remain a tedious hour in the room at the depot, with his face muffled, as if he were suffering from a dreadful tooth-ache. At length the train started. The trains which go respectively to Munich and Kaufbearen run about 1000 yards along side of each other.

So soon as they were in motion, and the fugitive had sufficiently surveyed the passengers in the same car with him to feel secure, he removed the bandage and diverted himself by looking out of the window. Suddenly a voice from the opposite car in the Munich train, exclaimed, "Ah! there is Roesler of Oels!" The passengers in the car crowded to the window. R. inwardly cursed the man's sharp eyes, and was delighted when his own train diverged to the right.

But he knew himself to be again in danger. A telegraphic despatch from Munich could overtake him at Kaufbearen before the stage would leave there. Hence, he there caused himself to be entered on the list of passengers from thence by the name in the forged passport, purposely missed the regular stage, to avoid appearing at the stage office, and followed in an express coach.

He had a letter of introduction to the late Mr. Dannheiner, a bookseller at Kempton, and a thorough republican; and he was closely related to that excellent man Huggen Mueller, but did not dare to inquire for him.

The only person in the coach was a Bavarian artillery officer. R. engaged him in conversation, and represented himself as a portrait-painter, who by reason of the hard times was traveling on the business of a Stationer. With apparent frankness he informed him that a great failure had taken place at Frankfort-on-the-Main—that his employer had instructed him by telegraph immediately to collect what was due him from his commercial correspondents in Kempten, Landau and Constance. Hence he had time to take nothing with him but a shirt and two handkerchiefs. This, moreover, explained his giving at each station a florin to the driver for increased speed, for it was of the utmost importance to R. that he should reach Kempten before night and find the persons to whom he had letters.

In the course of conversation with his companion, R. remarked, "Perhaps you know our correspondent, Mr. Dannheiner." "Oh, yes!" he said, "he has been confined for eight weeks in the Frohnveste, pending an investigation."

This was disagreeable news. "Indeed!" exclaimed R., "our employer said nothing to me about that." "Does he send me 278 miles by express, and forgets to inform me that our correspondent is imprisoned?" "What shall I do?" "If I arrive at nine o'clock, go to the Frohnveste, obtain admission, and leave at midnight by express, it will be rumored in the morning throughout the whole city, that Dannheimer is a bankrupt. For these slight circumstances will ruin the credit of a man who is in prison—and speak with him, his advocate, or agent, I must—and I can make no stay." "Be advised by me," said the officer, "and don't alight at the stage office. I am an officer, and no friend to republicanism; but the people who meet there in the evening are really too low. They are all informers." "But where shall I get out? I know nobody in Kempton." "Well then, get out with me! I will show you the way to the republican beer-house, at the sign of the seven geese. There you can safely obtain all the information you need." It was said and done. And a lieutenant of the King of Bavaria guided the fugitive rebel to the door of the republican beer-house—R. entered it silently, seated himself, and surveyed awhile the room and its occupants. Approaching the wall, he observed on it his own likeness, and those of other democrats. He was by this means recognized, yet by discreet and friendly persons. He soon perceived to whom he could apply, and the generous host, Alexander Schwartz, said that he would himself conduct him to the lake of Constance, not indeed by way of Landau, where the inspectors of passports were very strict, but by another route. Here, after forty hours of anxiety, he slept an hour and a half, and at three o'clock the next morning he started with his brave host for the lake of Constance, followed by the best wishes of the good democrats, who had immediately met for confidential consultation, and amid the tears of noble hearted women, who, here and wherever he met his political friends, manifested the liveliest interest and the most entire secresy. At Nonnenhorn, in Bavaria, he took, on a misty evening, a small boat, managed by two lads, which carried him to Rorschach in Switzerland. He was obliged to lie down in the boat to avoid observation from the shore. The mist soon dissolved, and in half an hour one of the young sailors said to him, "stand up, you are free!"—R. rose and saw, for the first time in his life, effulgent in the evening sun, the Alps and the proting shore of Switzerland.

As soon as the news transpired, there was of course very great rejoicing among the democrats at Stuttgart, Ludwigsburg, and in all Wirtemberg. The King and the reactionary party were the more enraged on account of their attitude towards Prussia, which would lead that power to suspect connivance. Moreover, the desperate character of the enterprise, astounded them. Sober journals stated that Roesler had leaped into a moat 40 feet deep and thus escaped. Mrs. R., was joyously received at Ludwigsburgh and Frankfort on the main.

On alighting from the cars at the latter city and whilst her trunk was being placed on a hack,

praised the healthy looks of her
manner as would be pleasing to a
with a certain degree of pride
might be pardonable in Germany, though

not in Milwaukee) she said "that is the son of Roesler of Oels"—and both driver and baggage-man refused to receive a kreutzer of their pay.—For Roesler's wife and child they were glad to work once for nothing. R., probably knew neither of them: they did not tell their names—but this is one of the proudest and most delightful reminiscences of his life.

R. and his wife happily rejoined one another at Antwerp, but not without his having been arrested at Saint Louis, through the arts of the French police and taken at Altkirch before the Sous Prefet, by whom, however, he was immediately discharged. He arrived in May 1850 in New York, where he established the first German High School, which adverse circumstances compelled him to relinquish to an Association that now has charge of it. From New York he came, to Milwaukee, where he purchased and has since, edited the *Volkshalle.*

The golden ass of King Philip of Macedon is not everywhere necessary. Few things are impossible to a determined and fearless man who possesses a devoted and prudent wife and some real friends. Those real friends were workingmen. It is singular that so few are to be found in any other class.

"*Note*—It is unnecessary to conceal the names of those noble and faithful friends, Alexander Schwartz, Gebr. Foster and Haggemueller.

A thoughtless person at Kempten, who had been admitted into confidence, in his foolish delight published the whole story, with the names of the persons, in a Nuremberg paper. But the Superior Court of Bavaria decided that as the description of Roesler had not reached Bavaria, and moreover, as he had violated none of the laws of that kingdom, it was not penal to have assisted him on his way. In short, the police had to be content with the worthy tavern-keeper's being fined about 57 cents, because he did not report that a stranger had slept over night in his house. "This," writes Schwartz to me, "has been richly repaid, for people came in great numbers from the whole vicinity, to see the place where Roesler of Oels sat beneath his own portrait and only a few persons recognized him!"

City Matters.

THE "EXCELSIOR" FESTIVAL.—The sixth anniversary of the "Excelsior Society" of Milwaukee was duly commemorated by a Supper at "The Home" on New Year's Eve. The entertainment provided for the occasion by Mr. BELDEN was altogether the most sumptuous and elegant one we have yet seen in this city, and was abundantly enjoyed by as pleasant a company as are often assembled together. Mr. LEVI BLOSSOM presided at the feast, assisted by Messrs. L. SEAVER and M. H. ORTON. His Honor, Mayor WALKER and Lt. Gov. BURNS were among the Society's guests on the occasion, and each contributed largely to the entertainment or the company. An excellent band of Music lent its inspiriting strains to the festival, and speeches, songs and sentiments followed each other in rapid succession till the Old Year had drawn its last breath, and the New was enjoying its first hour of existence. A full report of the proceedings will appear in a day or two.

Theatre—Benefit of Mrs. Rice.

The performances at the Theatre this evening, being the last night of the season, are for the benefit of Mrs. RICE. The bill offered is a very good one, embracing the tragedy of "Fazio." "the Swiss Cottage" and "Faint Heart never won Fair Lady," together with a variety of music and dancing. Mrs. RICE is so deservedly a favorite with the Theatre-going public, as indeed with all who know her, that we cannot doubt the result of her appeal to-night. We hope to see the Theatre crowded with hosts of her friends, anxious to render at parting a substantial token of their admiration and good will.

KIRBY'S CLOCK.—The Town Clock erected by Kirby, on the top of his new and handsome store, at the corner of Wisconsin and East Water Streets, was set in motion on New Year's Day and now, to the great convenience of the public generally and business men in particular, proclaims the "time of day." The least the public can do, in return for this service, is to agree to consider Kirby's Clock as the standard of time for our city, and regulate our public meetings, business and social appointments &c. by its figures. We make the motion accordingly, and hope our brethren of the press will second it, and the public vote for it unanimously.

GENERAL INSURANCE AGENCY.—The advertisement of Messrs. SMYTH & FORCE, in this morning's paper, will attract the attention of such of our readers, in City or Country, as may wish to get any property insured. These gentlemen are General Agents for Wisconsin and represent several strong and well-managed Companies in New York and other States. They have had much experience in the business and are proverbially prompt and accommodating in their intercourse with customers. All losses on which they have insurance will be settled at their principal office No. 177 East Water Street, in this City.

Young Men's Association.

We perceive that the Young Men's Association have moved their Library to Young's Block. The Directors have made arrangements to have the Reading Room open every day henceforward, and as the table is well supplied with Magazines, Reviews, &c, we hope that many of our citizens will expend a dollar in becoming Members. We do not know a more useful New Year's Gift, than a ticket of membership to the above Institution.

PARK BENJAMIN.—We regret to learn that Mr PARK BENJAMIN has decided to defer, for the present, his contemplated visit to Chicago and Milwaukee. He came as far as Jackson, Michigan, on his way West, but found Winter travelling too much for him and so turned his steps homeward. Mr. BENJAMIN, however, was so much pleased with what he saw of the West and the success attending his Lectures, that he intends to make another trip in this direction, next spring, when he hopes to visit Milwaukee and deliver his whole course here.

☞ At the Annual meeting of Milwaukee Engine Co. No. 1 held last night, the following Officers were unanimously chosen to serve the ensuing year:

Foreman—Rufus King.
First Assistant—John Lowther.
Second Do.—A. Jacks.
Secretary and Treasurer—Henry Middleton.
For Trustee—Clarence Shepard.
S. S. Daggett, Steward.

MORE INCENDIARISM.—The Carpenter Shop of Mr. EDWIN PALMER, near Hawkins' Planing Mill, on the River, was fired in several places, between 6 and 7 o'clock, New Year's Night. Fortunately, before the flames had made much headway, they were discovered by some of the men about Davis & Moore's Stables, and speedily extinguished.

WAUKESHA SENATE DISTRICT.—Mr. WILLIAM H. THOMAS is the democratic candidate for Senator in the Waukesha District. He was nominated on the eighth ballot, by *two* majority over B. HUNKINS, who had tied him in one or two previous ballots. The whigs held their Convention yesterday, and nominatdd Mr. E. B. WEST.

BOARD OF SUPERVISORS.—The County Board met yesterday afternoon and made choice of JESSE VLIET Esq. as Chairman, in place of Dr. JOHNSON, resigned. After passing a few accounts and transacting some unimportant business, the Board adjourned till Monday next at 10 o'clock A. M.

MILWAUKEE NORMAL INSTITUTE AND HIGH SCHOOL.—We neglected to notice on Thursday morning, the card announcing the opening of the winter term of this popular and excellent school. It will be found in our columns.

LECTURE TO-MORROW.—We are requested to give notice that a lecture will be delivered to-morrow afternoon at 2½ o'clock, by General PAINE, before the Temperance League of Oregon Company No. 3, at their Engine House in the Second Ward.

WISCONSIN.

> The fact has become too evident to conceal, that Wisconsin can never be a first class wheat growing State.
>
> A heavy tide of emigration has set towards Wisconsin for the last ten years attracted by its apparent agricultural advantages, but this tide has become checked, and already the current is beginning to react.—Our informant states that he found in the course of his tour *seven* families, who had left Washtenaw Co., Mich., for Wisconsin, preparing to return to their former homes.
>
> We mention these facts from no motive of ill-will to Wisconsin, but to place persons seeking a new home, at rights with regard to a State in regard in which great misapprehension has long existed.—*Detroit Advertiser.*

☞ We can assure the correspondent of the Advertiser, that his sympathy for Wisconsin is unfounded, for we have seen and ground as good wheat in that State as in any other, Michigan not excepted. It is true the little wheat that farmers have sown for a few years back, in some locations, proved a failure, but the farmers of Wisconsin have always produced wheat of equal quality with any other sample of any state. As late as 1843 Milwaukee wheat was considered a fancy article, which will be seen by reference to the commercial reports of the eastern markets; and as to the importation of flour, by 'the best public houses,' we think it entirely owing to their lack of credit with their own millers; and for the benefit of those 'importers' we will just refer them to Medbury & Hoover's flour, branded Empire Mills, Milwaukee, and—if their other fixins will only agree with the quality of the flour to be obtained at their mill, we say in return, we should like to be one of their regular boarders, for Empire and Stone Mill are both favorite brands in Buffalo. If the correspondent of the Advertiser has as much relish for corn dodgers as we have, he could have easily have told another tale, for we think as soon as the soil of Wisconsin gets reduced in strength, (we mean the Prairie land,) then with sufficient skill on the part of farmers, they may expect a return of their former luck.

We should strongly recommend to the farmers of that State, the plan of plowing deep, drill in the seed wheat deep, sow early, and about the last of October, and before the heaviest fall frosts set in. Sprinkle a light covering of straw all over the crop, which will protect the roots from absorbing too much of the cold rains which are so common in the fall and winter, in that State; straw possessing that absorbing principle, and in connection with a hard frost, will form a coat and covering, equally as good as a mat, and prevent the frosts of February getting hold of the roots of the plant, thereby extracting so much of the vital strength required to nourish and protect the stalk, in after times during a rapid growth and early maturity. This plan may be tried with little expense, and if successful, we hope to hear of beneficial results to the farmers of the Prairie State.

We have ourselves given the subject of raising wheat on Prairies considerable attention, and in the absence of timber, resorted to straw, as a shelter from the inclemency of an exposed atmosphere. This is the only effectual remedy which presents itself to our mind, as likely to ever succeed in obtaining the desired results. In using our remedy, we should observe that in applying the straw, a light coat is better than a heavy one; it should not be applied so as to cover the ground in spots only, but have an even appearance, and not spread so thick as to prevent the easy penetration of the plant through the straw in the spring.

Our description and plan of procedure, being explained, we leave the modus operandi for the future action of all those wishing to adopt our views, as set forth; and if the results should not be in accordance with our own sanguine views, we shall be content in believing that Wisconsin will still be the land of pork and potatoes.—*American Miller.*

ROSE TAMISIER.—It will be remembered that some time ago Rose Tamisier was tried by the Tribunal of Correctional Police at Carpentras, for having got up the pretended miracle of a bleeding picture in the church of St. Saturnin, and having outraged religion by possessing herself of the consecrated wafers left on the altar. The tribunal, however, after going into all the facts of the case, declared itself incompetent. An appeal was thereupon presented to the Court of Appeals of Nismes by the public prosecutor, and that court had just tried Rose Tamisier anew, declared her guilty, and condemned her to six months' imprisonment, 500f. fine and costs.—*Galignani.*

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, January 3, 1852.

The market yesterday presented but a moderate show of business. Receipts of grain and flour moderate, and prices exhibited no change. We continue our quotations at 2.50 @3.25 for inferior to common country flour, and $3.50@4.00 for good to extra country and city.

Wheat 35@40 for spring, 45@65 for winter.

Pork plenty, but not in such quantities as last week. We quote at $3.75@4.25

STATISTICS OF THIS PORT.—We find that one item of export was omitted from our footings which is well worthy of notice. No less than 29500 dozen of eggs have been sent forward during the season of navigation.

St. Louis, Dec. 25.

HOGS.—Yesterday 600 head were sold at $4.80, average weight 200 lbs; 200 head light hogs at $5, sold to a butcher; also a lot of 60 at $4.75. We learn from a reliable source that 800 head are on the way from Illinois to this market, 600 of which will average 200 lbs ⅌ head; and also of 1000 head coming in on the St. Charles road. Both lots will arrive in in about three days.

CATTLE.—Small sales yesterday to butchers at prices varying from $3 to $3.75. There are quite a number of cattle at St. Charles, awaiting an opening in the river, for this market. The market now bids fair for a quotation of higher figures, as drovers are fast disposing of their cattle.

500 Dollars Reward!

THE repeated attempts which have lately been made to fire buildings and vessels in this City, manifest the existence of an organized gang of wretches, whose detection and conviction requires the strenuous efforts of all well disposed persons, as well as of the public authorities of the City, which it is hoped will not be wanting. As a further stimulant to such exertion, I do hereby offer a reward of *Five Hundred Dollars* for the detection and conviction of any person who has, or shall, wilfully set fire to any building or vessel in this City.

The Cuba Prisoners all Pardoned!

New York, Jan. 2—2 P. M.

The steamer *Africa*, from Liverpool, 9 A. M. Dec. 20th, arrived at 11 o'clock this morning.

FRANCE.

Accounts from Paris are of an interesting character. The President has distributed an immense number of crosses of honor and decreed a large sum of money to be distributed among the disabled soldiers of France.

Gen. Cavaignac had been released from prison unconditionally, and was about to leave France for Holland with his family.

The other generals are to be released on condition of becoming voluntary exiles.

Victor Hugo was at Brussels. The partizans of the President are active in gathering up a large majority, fearing that if not large, he may proclaim himself Emperor. Others were doing all in their ower to induce the people not to vote at all.

Appearances, however, indicated that he would ave full as many votes in his favor as in 1848.—a majority at Mentz garrison voted against the 'resident, and the scholars in the Paris school, ho were electors, amongst them the young rince Polignac.

The President held a levee on the 17th; all the orps diplomatique attended except Mr. Rives, he American Minister. The President is to take n active part in the drawing up of the new onstitution. It occupies no less than 9 hours aily.

The duke D'Enghien, eldest son of the duke D' rammont, has been appointed minister to Hesse assel. The department of Police has been raised o the rank of the ministry. Mr. Carlier is the ew minister.

The latest accounts from Paris state that Gen. Cavaignac refuses his release unless the same favor e extended to all his fellow prisoners.

SPAIN.

The Madrid *Gazette* contains an important document from the Minister of Foreign Affairs, in reply to Mr. Webster's note on the Cuban difficulties, and expressive of his satisfaction at its tone, because it is considered an act of justice that satisfies Spain, as much as it exalts the government of the U. States, Her Majesty's government has never ceased to expect that it would disapprove of such painful events, and that the liberality of its conduct upon the occasion would offer new guaranties and greater security to the maintenance of friendly relations, which with reciprocal advantages, have constantly existed between the two Governments.

The *Gazette* concludes by announcing the *par- n of all the prisoners,* proceeding from the last pedition against Cuba, who may be citizens of e U. S., whether in Spain now, fulfilling their ntence, or coming from Cuba.

ARRANGEMENTS FOR 1851.

As the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1851, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

Since the commencement of last year a large number of magnificent ships have been added to the various popular lines for which we are the Agents, and several others are now in course of construction, all of which will be fitted up for passengers in the most superior manner, and commanded by men of long experience.

By the following List of Packets, and their dates of sailing—being six regular packets a month to and from Liverpool—four, to and from London—and two, to and from Glasgow—persons sending for their friends, or those proceeding to the "Old Country," will perceive it much to their advantage to make arrangements at our office; and as heretofore, our business in *Liverpool* will be under the personal superintendence of our Mr. W. TAPSCOTT—whose well known care and attention to passengers embarking by our line has won for him his present high reputation among the emigrating public.

FOR COOKING, PARLOR & OFFICE USE; GRATES, FIRE FRONTS, CITY AND COUNTRY HOLLOW WARE, KETTLES of all kinds; SAD-IRONS, STRAW-CUTTERS, CORN-CRACKERS & SHELLERS, AGRICULTURAL IMPLEMENTS, AND PORTABLE

GRIST MILLS.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms [illegible].

In offering our stoves to the community, we do so with the full assurance that we can supply better articles than can be procured at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
Double Oven Cooking Stove,
(*Which received the First Premium at the State Fair, lately held at Janesville.*)

Possesses great advantages over every other stove, for plain fires and direct application of heat, being so arranged that one or both ovens can be heated at pleasure. It will cook in half the time of any other stove now in use, and with but half the fuel, not consuming over [illegible] cord of wood [illegible] one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamented, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with two doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever used as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broken, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident it will give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

Troy Fire Insurance Company
TROY, WALWORTH COUNTY, WIS.
CAPITAL $100,000.

The Directors feel grateful to the public for having thus early manifested their approval of and confidence in this Company. After having been in operation ten months, we are able to report as follows:

Whole number of Policies issued,	560
Whole amount of Property insured,	$623,651 00
Whole amount of Cash premium,	5214 37
Whole amount of losses allowed and paid,	371 27
Balance of Cash Premium on hand,	4843 10

IT is gratifying to the Directors to state to the members of this Company, that the business has more than met their expectations, and is rapidly increasing. This unparalleled success in the commencement, and increase of business, show that our plan and management meets with the approval of the public.

The Charter and Bye-Laws are free from objections, and provide that the risks shall be divided into two distinct departments, and the premium notes in one shall not be liable for losses in the other. The only risks taken in the Farmer's Department are on farm property, detached dwellings, country churches, school houses, tailors' shoemakers', and saddlers' shops. No hazardous risks will be taken in either department, nor more than $2000 in one risk, or in a circle of eight rods.

The company possess both the advantages of the Stock and Mutual plan. Any person insuring may pay once and one-half the regular cash premium in full, without a premium note. Stoves may be added or changed, out buildings erected, if fifty feet from dwelling, and such additions not to increase the hazard, without notifying the company. The Company will be responsible for the correctness of surveys taken by their Agents. Insurance may take effect on the day the application is made. The Company pays, in case fire, the full amount of damage not exceeding the amount insured, and all matters of difference may be settled by arbitration in the county where the loss occurs.

The rates charged by this company, though low, are based upon the actual results of insuring for the past twenty years, and are found to be sufficient, with prudent management, to pay all losses and expenses without ever resorting to the premium notes; thus the rates on exposed dwellings and farm property, are a premium note of one per cent, and a cash premium of fifty cents on each $100 for five years.

In publishing our safe, cheap, and popular plan of insurance, we deem it a duty to ourselves and the public to state a few existing facts with the Washington and Montgomery.

The Washington County Mutual commenced in 1835, by collecting thirty cents on $100; in 1848 they, last discovered that this was insufficient to pay losses, and raised to 33 cents, and now are collecting 50 cents on each $100; the result of which is, by their report, Jan. 1, 1850, a deficit in the treasury, and 58 million at risk, on which they will probably lose two hundred thousand, making the actual debt 191 thousand.

The Montgomery County Mutual is another example of bad management. They have been in operation a little longer than the Washington, and their report shows what the Washington is fast coming to. Their reported to the Comptroller, Jan. 1, 1850, at their losses and cash expenses had exceeded their cash receipts twenty nine thousand dollars, and fifteen thousand dollars claims unsettled, making debts and claims forty-four thousand dollars, and some thirty millions at risk, on which they will probably lose ninety thousand dollars more, making their actual debt one hundred and thirty-four thousand dollars.

The cash premiums now collected by those two companies on what they insure in future will only pay losses on the same, consequently those insuring with them now not only pay for their insurance, but assume a portion of those enormous debts which must be raised by tax. These companies are unpopular in New York, and are compelled to wander in the Valley of the Mississippi where they are not so well known for business. Arch Bishop and Lester Wilcox may publish, as heretofore, their firm belief that no tax will ever be necessary, but the figures are the things to judge from.

Since the above reports, the Montgomery have levied a tax on their premium notes.

Now we would ask the public candidly, which of these three companies it is to their interest to insure in; the Washington, and assume a debt of $191,000, the Montgomery, and assume a debt of $134,000, or of the Troy, with an increasing cash fund sufficient to pay all losses and expenses without ever resorting to a tax?

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impairs the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief, it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."

Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored, by the use of a bottle or two, to bloom and to vigor.

☞ Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.

Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case. A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause. J. R. TUFTS & Co.

HERMANSVILLE, Oswego Co., May, 1848.

S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.

Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and before he had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by October last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.

Respectfully, JAMES RUSSELL.

PATENT MEDICINES,

Dr. Trasks Magnetic Ointment,

CAN now be obtained in this city of S. JOHNSON, Jr., and H. Bosworth & Sons, and of one or more Druggists or Merchants in most of the cities or villages of the West! The great and increasing popularity of this remedy is mainly attributable to its controlling power over acute inflammation and nervous irritation. From the best of evidence in our possession, from Physicians, of the best standing, who have prescribed it, and from others who have been healed by it, we are satisfied that it will cure in some cases where no other known remedy will do it. This it has appeared to do in numerous cases of Chronic Sore Eyes and partial blindness, where the most eminent medical treatment had failed! For inflammatory Rheumatism Burns, Freezes, Ulcerated sores, Scald head, or for relief from a sudden stoppage of the pores of the skin by colds or fevers, a thorough trial will establish its claims to the confidence of the public. Our agents are supplied with circulars containing interesting details of its happy effects in many extreme cases.

"The certificates are copied verbatim." The proprietor of the Genuine Perry Davis' Pain Killer will prosecute any person, engaged in selling this spurious article, and is determined to protect himself and the public from this "infamous fraud." GREAT DISCOVERY.
JOHNSON'S CHEMICAL
HAIR INVIGORATOR,
To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually
SCURF OR DANDRUFF.
Prepared only by S. JOHNSON, 151 E. Water-st.
FOR THE TOILET,

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, healthy, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 21 2m

Is the warning given of the presence of disease, and the disarrangement of the nervous and muscular system. In order to cure disease and rid the system entirely of its cause, our first great desideratum is to stop the pain—strengthen the nervous energy—invigorate healthy action—the functions and secretions of every organ in the system; this we accomplish by the marvellous strengthening, cleansing, invigorating and powerful pain-soothing properties of Radway's Ready Relief. No matter what the cause of pain be—if it arrises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhoea, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief, taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

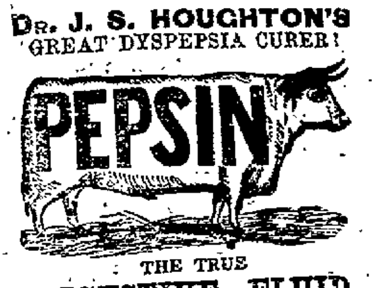
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!



THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicines.

We would respectfully call the attention of our many friends, and the public generally, to an instrument we have recently imported from Paris, called a

"Conformateur,"

from which the above cut was taken. By it we can take the exact shape, and unerringly *fit* the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away; as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $1.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see us.
